

## The Bishops Trust

Why are bursaries important and why particularly Bishops bursaries? To answer this we must determine what the primary benefit of a Bishops education is.

The strong case is that the School has, does and will continue to produce boys who go on to make a difference and do so because of their Bishops *education*.

Steering South Africa in a different direction requires great leaders and excellent education and schools like Bishops play a leading role in producing both.

Fee income does not generate enough funds to cover bursaries and there are many boys in previously disadvantaged communities who are highly talented and with the education Bishops could provide will go on to make an enormous difference in South Africa. These boys will be denied this opportunity because they can't afford what Bishops has to offer.

It is with this in mind that the Extra Term Initiative was implemented and to date, thanks to the generosity of families, ODs and corporates, we have been able to offer a Bishops education to 9 talented boys. This tax deductible gift could change a boys future... it only takes one person, in the words of Latimer, "to light such a candle ...".
